EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Sima Kulkarni on 11/15/04.

2. The application has been amended as follows:

In claim 34, line 3, after "derived from MPB64", "or MPT64 and fragments thereof" has been deleted.

In claim 39, line 2, after "transdermal", "device" has been deleted and --delivery vehicle-- has been inserted therefor.

Claims 40-57 have been cancelled.

3. The following is an examiner's statement of reasons for allowance: Prior art of record fails to teach or fairly suggest a transdermal delivery device such as plaster or patch having applied or impregnated thereto a composition comprising an antigen derived from MPB64, for transdermal delivery of the antigen into the skin. The prior art of record teaches that the composition is injected intradermally into skin; hence, there is

no suggestion to one of ordinary skill to incorporate the composition into transdermal device for delivery of the antigen subdermally into skin layers.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
